

## On-line data on water intake structures in the Karadarya river basin for vegetation / non-vegetation period, m<sup>3</sup>/sec

Andijansay

Sharihansay

including UFK<sup>1</sup>

Savay

PBK<sup>2</sup>

PBK Uzb

PBK Kyr

Sluice

Total supply kanal:

Small taking of Andijan

Ulugnar

Pakhtaabad

Siza

BFK<sup>3</sup> from Karadarya

Total offtake from Karadarya :

Sum total offtake from Karadarya:

Total supply kanal: =  $\sum$  (Andijansay, Sharihansay, Savay, PBK, Sluice)

Total offtake from Karadarya : =  $\sum$  (Ulugnar, Pakhtaabad, Siza, Small taking of Andijan., BFK from Karadarya)

Sum total offtake from Karadarya: =  $\sum$  (Total supply kanal, Total offtake from Karadarya)

<sup>1</sup> UFK - South Fergana canal

<sup>2</sup> PBK - Right bank canal

<sup>3</sup> BFK - Big Fergana canal
